RATS IN THE TRAP.

On Thursday the British and French troops on the eastern side of the salient advanced two miles more toward Fismes. This greatly narrows the neck of the bottle Foch is attempting to make.

The mouth of the pocket is now only 21 miles wide and the whole district between the two sides is under the range of entente allied guns.

The French are continuing their attacks between the River Ourcq and the River Marne. They advanced Thursday night for a distance of a mile, capturing the southern part of Fere forest and they now occupy a farm on the main road from Fere-en-Tardenois to Jaulgonne.

The town of Fere-en-Tardenois is now within 8,000 yards of the French lines.

The French also pushed well forward along the south bank of the river Oure but by morning they found they were in an isolated position and were compelled to fall back.

East of Rheims a Polish contingent attached to the French army made a successful enterprise and captured 213 prisoners.

On the west side of the pocket the Franco-American troops have straightened out their line at the expense of the Germans during the last twenty-four hours, this involving the loss to the enemy of about 40 square miles of territory between Armentieres and Vincelles. The line in the lower western part of the pocket now runs straight southeast to give up all little angles and corners.

The German military nerve center at Fere-en-Tardenois which, as the junction of several roads, was the most important storehouse and distributing point of the Germans south of Fismes, is now under the cross fire from the French and American artillery and must be well nigh untenable. In fact, no place in the whole pocket is a very comfortable position with the allied long range artillery sweeping back and forth, with balloons and airplanes directing the fire.

Possible evidence of a further withdrawal by the Germans is seen on the western flank of the pocket in the fact that the German artillery fire has grown much lighter all through this sector and the guns appear to be firing from greater distances behind the lines, as if being pulled back to places of safety.

Dr. Ben L. Bruner, one of the Republican candidates for the nomination of U. S. Senator, is in town and spent yesterday mixing with his friends in all parties. Dr. Bruner is very popular in Hopkinsville and as between him and his opponent even the democrats want to see him nominated, if it is any fun to him to lead a forlorn hope.

The Germans do not seem to be trying very hard to get out of the pocket, but there plan apparently is to fall back by degrees, as they are pushed back on three sides. A flying wedge to cut them off would put the whole German army on the flank of a thin line of allies. Foch is not yet ready to risk his men.

The Evansville Courier's cartoonist represents the battle of the Marne salient as a great gridiron cornering on Chateau Thierry, Rheims, Soissons and Fismes. In the center the Crown Prince is whirling about and frantically asking "Vere ish de ball?"

Arthur Guy Empey, author and soldier, recently commissioned a captain in the national army and assigned to the adjutant general's corps, was honorably discharged by Friday's orders. No reason was stated.

The treasury virtually has decided to hold the fourth Liberty loan campaign in the three weeks' period between Saturday, Sept. 28, and Saturday, Oct. 19.

The family of George A. Hehemann, in Louisville, has Americanized the name by a court order changing it to Heman.

Senator James is now able to sit up and dictate letters.

PRESIDENT DISCUSSES MOB LAW

(By Associated Press.)

Washington, July 26.—President Wilson today in a personal statement addressed to his fellow countrymen denouncing mob spirit and mob action, called upon the nation to show the world that while it fights for democracy on foreign fields it is not destroying democracy at home.

The president referred not only to mob action against those suspected of being enemy aliens or enemy sympathizers; he denounced most emphatically mob actions of all sorts, especially lynchings, and while he did not refer specifically to lynchings of negroes in the South, it is known that he included them in his characterizations of mob spirit as a "blow at the heart of ordered law and humane justice."

It is known that the lynching of negroes, as well as attacks upon those suspected of being enemies or sympathizers, have been used by the German propaganda throughout Central and South America as well as in Europe, to contend that the pretensions of the United States as the champion of democracy are a sham.

Deeply concerned by the situation, the president declared to address his fellow countrymen and to declare that "every mob contributes to German lies about the United States what her most gifted liars cannot improve upon by way of calumny."

FOCH AND AMERICANS PROVE THEMSELVES

GERMAN CAMPAIGN OF RIDICULE HAS FOUND ITS ANSWER IN SECOND MARNE BATTLE.

London, July 25.—An official announcement today gives the views of an Australian correspondent with the Australian forces in France who says: "The German newspapers have been concentrating on decrying Gen. Foch and deprecating the American forces. The campaign against Gen. Foch, intended to shake the confidence of the allies in their common commander, has been utterly stultified by the second battle of the Marne. The newspaper barrage of depreciation of the quality of the Americans is intended for people inside of Germany since we in France see and know.

"If the German comforts himself with the idea that they are not equal much the better, because his surprise will be very great. Their military authorities taught them the same fallacy respecting the troops of the British dominions. We here on the spot know that the quality of those troops is infinitely higher than that of any of the German troops the Australians ever met in France. Australian officers and men who know this war in every form, say that without exception the American troops are the finest one could possibly wish to meet."

THURSDAY'S LIST.

Washington, July 25.—Kentuckians in today's casualty list: Marines—Severely wounded in action, PRIVATE SYLVESTER J. NUGENT, of Covington, and LIONEL D. SAMPSON, of Shelbyville. Army—Killed in action, PRIVATE JOHN O. LEWIS, of Hartford; severely wounded, CORPORALS ROBERT P. PIERCY, of Hardinsburg; WILLIAM WEST, Pine Knot; PRIVATE CHARLES S. LYNN, of Owensburg, and TEMERLAND H. MASTERS, of Soldiers.

(By Associated Press.)

The ninth day's Allied offensive on the Soissons-Rheims salient, saw a lessening in intensity of the battle along the western side of the salient, where only mutual bombardments were in progress. Along the Marne, however, and southwest of Rheims the Franco-Americans, British and Italians are still at deadly grips with the enemy on various sectors.

The Germans strove hard in the Forest regions north of the Marne to hold back the French and the Americans from debouching from the wood. The enemy was everywhere forced slightly back to the north, however, and the forests have been almost entirely cleared of Germans.

Southeast of Rheims heavy reinforcements evidently have been thrown along the front, where the British, French and Italians are fighting. In the immediate region of Ruell, where the battle line turns sharply towards Rheims the French have taken several points of vantage.

Eastward from Rheims the French have taken nearly all of the old line they held before the German attack began and are daily harassing the Germans.

Big Allied guns are heavily shelling the entire salient within which the Germans are confined.

The Germans are contemplating a further retreat seems indicated by the fact that they are using comparatively small forces of infantry, depending upon machine guns and artillery to hold the allies back.

In Flanders the British attacked with no success to Germans.

Elsewhere the battle fronts are quiet.

RAINCOAT CO. DEMANDS FULL PROBE BY BAKER

New York, July 25.—Officials of the C. Kenyon company, of Brooklyn manufacturers of raincoats, four of whose employees are charged with having conspired to supply defective garments to the United States Government authorities, in a telegram to Secretary Baker today demanded an immediate and thorough investigation "by some person or board in whom you have implicit confidence."

Attorney Frank J. Hogan, speaking for Clarence Kenyon, president of the company, which has been in business since 1857 and is capitalized at \$5,000,000, said:

"We ask this not only in justice to the company, but in justice as well to 3,000 Brooklyn people who are at it employees. We are not only standing by our employees—all of them—but we are proud of them. The charges brought against this company and four of its employees are not only unjustified, but utterly indefensible."

GERMANS HAVE LITERALLY TAKEN TO THE WOODS

(By Associated Press.)

With the American Army on the Aisne-Marne Front, Eight p. m., July 25.—The Allied offensive has slowed down, but has not checked. Franco-American troops have forced back the Germans a bit further north. The greater part of the fighting is taking place in the big forests north of the Marne, along the western flank of the salient. The Germans have taken to the woods.

YESTERDAY A QUIET DAY

(By Associated Press.)

Paris, July 26.—Only artillery activity prevailed south of the Ourcq river Friday, infantry on both sides remaining in their trenches, according to a French official communication issued this evening. Several additional advances were made south-west of Rheims.

STEALING FROM EACH OTHER.

(By Associated Press.)

Amsterdam, July 26.—The German newspapers are much agitated over an epidemic of horses stealing in Berlin. In a single week recently, horses valued at \$25,000 were stolen in Berlin, most of them while standing in the streets in daylight. The animals are sold in the provinces, where they fetch fancy prices, or are used for clandestine butchering in Berlin. A pair of fine race horses recently disappeared during a race meeting at the Grunewald course.

STRIKERS MUST WORK OR FIGHT

(By Associated Press.)

London, July 26.—Premier Lloyd George tonight announced on behalf of the government, that all men willfully absent from work on or after Monday will be deemed to have voluntarily placed themselves outside the munitions industry. Protection certificates will cease to have effect and the men will become liable to the provisions of the military service act, the Premier added.

TERMS OF THE INCOME TAX AGREED UPON

(By Associated Press.)

Washington, July 26.—Graduated excess profits tax from thirty to eighty per cent on net incomes beyond exemption practically was adopted today in final form by the House Ways and Means Committee, thus ratifying the tentative agreement reached yesterday. The committee also decided upon the same specific exemption of \$2,000 plus ten per cent of the amount of invested capital. Adjournment was taken until Monday, when taxation luxuries estimated by the treasury as capable of raising two billion dollars will be considered.

AMERICA RULES THE WORLD

(By Associated Press.)

Washington, July 26.—"It is through the cinema that the nations of the world will get to understand each other; the cinema will be a tremendous power in cementing the projected league of nations which is to maintain a world peace," declares a writer in the London Evening News, urging that British motion picture manufacturers should beset themselves to overcome American "domination" of the market. Calling attention to the powerful influence of the screen in affecting the thought of the public, the writer further demands that the government, possibly through the Colonial office, should assist in pushing British films on the markets of the Empire and see that "the heart of England is not American."

"Ninety per cent of the ideals and sentiment emanating from British screens in America," the writer continued, according to a copy of the article transmitted in official dispatches to the Bureau of Foreign and Domestic Commerce. "We shouldn't grumble, I am sure, if 10 per cent of the ideals and one per cent of the sentiment shown on American screens were British. But they are not. American ideals and sentiment dominate the screens of the whole world."

"The British dominions, as far as the cinema is concerned, are in the hands of the cinema 'kings' of the United States, some of them of German origin, but as keenly American as any to see the Stars and Stripes flutter on the screens of the world. There are few pictures nowadays in which 'Old Glory' does not get a look-in."

"Americanization of the world through the moving picture has been going on for the past four years. American ideals, the American flag, railway stock, motor cars, police courts, flood the screens. To the people of the British Empire, the greatest men of all time are George Washington and Abraham Lincoln. Nelson, Drake and Wellington have no place on the screen."

Canadian pictures are almost wholly made in America, the writer asserts. Australia will have none of British pictures, except topical films, and there also is no market for the British product in New Zealand. India is the one "bright spot" in the Empire where British films are welcomed.

"Let us have some reciprocity with America," the article concludes. "Let us exchange our pictures and learn of one another. It is that or the Americanization of Germanization of the world through the cinema. And it is going to have a big effect."

The skinning going on in the Cha-
teau Thierry salient has caused hides
to drop 8 cents.

The last day of July marks the
fourth year of the war. One more
year will wind it up.

Following a dinner to be given
July 24 by Mr. and Mrs. Joseph B.
J. Dufour at Freeport, Ill., in cele-
bration of the golden anniversary
of their wedding Mr. Dufour finished
smoking a cigar he lighted and partly
smoked on his wedding day fifty years
ago. Mr. Dufour, who is an insur-
ance man, was 20 years old when he
married and his wife only 15.

The price-fixing committee of the
War Industries Board has fixed the
prices of hides for the next three
months at 7 to 8 cents lower than
the old prices. Packing hides range
from 24 cents to 30 cents a pound,
according to the weight of the steer,
the country hides from 21 cents to
22 cents. All country hides are to
be bought and sold on a selected
basis.

Prince Yoshisha Tokugawa, head
of the Japanese Red Cross mission
in America, speaking today before
student nurses at Vassar college,
paid a high tribute to the work of
the American women in the war. He
declared that the transformation of
this country from a peaceful nation
to one at war, well armed and well
prepared, in so short a time will go
down in history as one of the marvels
of the present war.

The decisive battle of the war is
being fought. General von Ardenne,
military expert of the Tageblatt of
Berlin, discussing the military situa-
tion, said it would be a dangerous
self-deception to deny that the of-
fensive of General Foch in the Aisne-
Marne region had brought him re-
markable success and the writer said
the German command must beware of
the French general. General von
Ardenne expects that hard fight-
ing will develop towards the North
sea, but for the present, says, a
decision must be arrived at between
Soissons and Chateau Thierry.

Tired Nervous Mothers

Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my housework."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

THE FEDERAL EXPLOSIVE LAW.

The Federal Explosive Act prohibits the manufacture, sale, purchase and possession of all explosives and their ingredients, in time of war, without a license. In other words, the dealer must have a license, and the purchaser must have a license. The dealer must keep an itemized record showing the name and address of purchaser, his license number, kind and quantity of explosives purchased, and purpose for which it is to be used. This also compels practically every drug store in the United States to have a license permitting them to have in possession and sell explosives ingredients, and the buyer must have a license when purchasing these ingredients in quantities of an ounce or more, and the dealer must keep the same record as the party who sells dynamite. These ingredients are: Bichromates, Chlorate, Chromates, Nitrates, Nitric Acid, Perchlorates, Perborates, Permanganates, Peroxides and Phosphorus, in their various forms.

This law will be rigidly enforced in the future; it having been in effect since November 15, 1917, and every dealer has had time to familiarize himself with the law and all its details, and no excuse will be accepted in the future. Violation of this act carries a penalty of \$5,000 fine or imprisonment in a Federal prison, or both. A careful and systematic check is being made, by Federal Authorities, of every dealer in the State who handles explosives or ingredients, regardless of location or size. An inspector or some deputy may drop in any day, and dealers should not allow themselves to be caught unprepared.

There is a United States Explosives Licensing Officer in every County, and such dealers as have not already procured their license should take immediate steps to do so.

This is considered one of the most important war measures enacted by our Congress, and dealers can not be too careful in making sales of explosives or their ingredients.

What to do about it all was the burden of the Asheville meeting. It was recognized that newspapers that have been showing a handsome profit are going to show a deficit, while those that have been just a little better than making expenses will have hard sledding to get through it all. The wisest publishers in the land are racking their brains about how to maintain the quality of their papers and still manage to show a fair margin of profit without raising the price beyond the reach of the average citizen.

You take our own case with the News. The operating expenses for the News for May, 1917, were \$36,740.81, while for May, 1918, they were \$47,825.42, while for June, 1918, it passed the \$50,000 mark. There is an increase of nearly 33.13 per cent. for May this year, and more than 40 per cent. increase for June. In the meantime, a 10 per cent. advance in advertising rates had gone into effect May 1, 1918, but 10 per cent. lacks a lot of making up for an increase cost of more than 40 per cent.

In 1916 the newspapers of the country were paying under 2 cents at the mill for white paper. During the greater part of 1917 the average price was around 2½ cents. For the first six months of this year the federal government fixed the price at three and ten one-hundredths cents, but the manufacturers of paper have appealed from this decision and have also been granted a rehearing before the federal trade commission. The manufacturers are practically a unit in declaring that four cents or more will be the price for the last half of this year.

Now, the figures I have quoted above as to the operating expenses of the News for May and June were made under advantageous paper contracts. With the probability of paper costing us four cents or more, we must look about us. The News white-paper bill, buying paper around three cents, has been averaging about \$20,000 a month. Increase the price to 4 cents, as seems very likely, and there is added about \$7,000 per month for paper alone, without allowing for the 25 per cent. advance in freight rates.

Now, that is the situation. We

NEWSPAPERS FACE MOST SERIOUS CRISIS

HOW NEWS PRINT AND POSTAL INCREASES ARE MENACING THEIR EXISTENCE.

Birmingham, Ala., June 24.—"The newspapers of this country are facing the most serious crises of their existence," said Victor H. Hanson, publisher of the Birmingham News, and chairman of the executive committee of the Southern Newspaper Publishers' association.

"I have just come back from Asheville, N. C., where the Southern Newspaper Publishers' association held its annual meeting and I want to tell you the situation is really serious.

"For three solid days nearly a hundred newspaper men—it was the most largely attended meeting in the history of the association—debated and discussed and resolved, trying to find the solution for the problem. The newspapers are up against the proposition of vastly increased expenses along every line, a price for white paper—which is the greatest single expense in issuing a newspaper—nearly double what it was two years ago, increased labor cost, higher prices for metal and machinery, for ink, oil and everything else that goes into the making of a newspaper.

"On July 1, the new postal law, which places a frightful tax on newspapers, went into effect; freight rates have just been advanced 25 per cent., and so on through the list.

"What to do about it all was the burden of the Asheville meeting. It was recognized that newspapers that have been showing a handsome profit are going to show a deficit, while those that have been just a little better than making expenses will have hard sledding to get through it all. The wisest publishers in the land are racking their brains about how to maintain the quality of their papers and still manage to show a fair margin of profit without raising the price beyond the reach of the average citizen.

KEPT HER AWAKE

The Terrible Pains in Back and Sides. Cardui Gave Relief.

Marksville, La.—Mrs. Alice Johnson of this place, writes: "For one year I suffered with a awful misery in my back and sides. My left side was hurting me all the time. The misery was something awful.

I could not do anything, not even sleep at night. It kept me awake most of the night. I took different medicines, but nothing did me any good or relieved me until I took Cardui.

I was not able to do any of my work for one year and I got worse all the time, was confined to my bed off and on. I got so bad with my back that when I stooped down I was not able to straighten up again. I decided I would try Cardui.

By time I had taken the entire bottle I was feeling pretty good and could straighten up and my pains were nearly all gone. I shall always praise Cardui. I continued taking it until I was strong and well. If you suffer from pains due to female complaints, Cardui may be just what you need. Thousands of women who once suffered in this way now praise Cardui for their present good health. Give it a trial. NC-133

"FOR THE FREEDOM OF THE WORLD."

Eight-Reel Patriotic Production Featuring E. K. Lincoln, With Barbara Castleton and Romaine Fielding.

Reviewed by Margaret I. MacDonald. A stirring eight-part patriotic production which was produced by Ira M. Lowry and F. J. Carroll, from the story of Edwin Bower Hesser. "For the Freedom of the World" is the title of the production which features E. K. Lincoln, with Barbara Castleton and Romaine Fielding, with a supporting cast consisting of Neil Moran, Jane Adler and Walter Weems.

The story of the picture follows the fortunes of a member of the American Legion, and presents some intensely interesting scenes which were evidently photographed at the training camps in Canada, showing how these soldiers are trained for the work ahead of them. One of the features of the picture is the night photography which it contains, and which has been very carefully done. From bursting shells by which to distinguish objects moving on the horizon, are very effective. E. K. Lincoln plays the role of the son of wealthy parents, who suddenly aroused from this profligate habits by a manly young officer of the American Legion, enlists and finally receives a commission. The character of the slacker is well portrayed by Romaine Fielding.
